SUMMARY

Versatile professional with a robust background in **Operations Management, Data Analytics, and Process Automation**. Possesses a unique blend of technical expertise and hands-on entrepreneurial business experience. Known for driving sales growth, improving service reliability, and leveraging data to solve complex corporate challenges to ensure operational excellence.

SKILLS & COMPETENCIES

- **Business & Operations:** Customer Relationship Management, Product Management, Delivery Logistics, Sales Growth
- **Data Analytics:** Advanced Excel, Data Dashboarding, IBM Cognos, EDA, SQL Data Retrieval
- **Automation & Optimization:** Bash Scripting, ETL Pipelines, Server Maintenance, Process Improvement
- **Software Tools:** Python, Microsoft Office Suite, Linux, Git, Relational Database Management Systems

PROFESSIONAL EXPERIENCE

- **Co-Owner & Operations Manager** Dhaka, Bangladesh
Shilar Sokher Rannaghor (E-commerce Business) 2022 – Present
 - Transformed a hobby-based online food and clothing venture into a scalable, profitable small business with steady revenue growth and an expanding customer base.
 - Led end-to-end business operations, optimizing product sourcing, delivery logistics, and daily sales management.
 - Implemented customer-centric feedback mechanisms to enhance product offerings, driving customer retention and continuous business growth.

RELEVANT PROJECTS

- **KAIRO — Automated Job Monitoring Product [LIVE]** Product Development, Automation
Live platform — kairo-job.vercel.app
 - Conceived, built, and launched a live SaaS product that automates career page monitoring for job seekers — replacing the manual process of checking thousands of company portals with one centralized, automated tracking system.
 - Designed an admin dashboard for user management, account moderation, and system health monitoring, demonstrating operational oversight and governance capabilities.
 - Integrated automated Telegram notifications to deliver instant job alerts to users, streamlining the entire job discovery workflow from detection to action.
- **Operational Data Pipeline Automation** Process Improvement
Project Link: github.com/ridhwankhan/Linux-Shell-Scripting
 - Automated routine data collection and server operations using Bash scripting and scheduled jobs, saving significant manual labor hours.
 - Developed an ETL (Extract, Transform, Load) pipeline to streamline the ingestion and processing of external datasets.
 - Enhanced operational reliability by implementing repeatable and well-logged data processing workflows.
- **Business Data Analytics Research** Data Integration
Multimodal ML Framework for Land Management
 - Aggregated and preprocessed diverse datasets (geospatial, socio-economic) to create structured analysis pipelines.
 - Identified actionable patterns and trends from complex data sources to support strategic decision-making.
 - Ensured high data quality and consistency across multi-source information systems.

- **E-Commerce System Integration** Web Development, Operations
Project Link: github.com/ridhwankhan/CSE370-Project
 - Built and deployed a comprehensive platform managing user authentications, product catalogs, and transaction processing.
 - Structured the backend relational database to efficiently handle user load and maintain fast query response times.
- **Access Control & Compliance Modeling** Risk Management
Project Link: github.com/ridhwankhan/ZERO-trust-Banking-system
 - Designed workflows focusing on strict identity verification, adhering to modern compliance and risk-management standards.
 - Implemented role-based access mechanisms to safeguard sensitive operational data.

EDUCATION

- **BRAC University** Dhaka
BSc in Computer Science CGPA: 3.44 2022 – 2026
- **Uttara High School and College** Dhaka, Bangladesh
HSC (2021) & SSC (2019) — Science GPA: 5.00/5.00

PROFESSIONAL CERTIFICATIONS

- **Foundations: Data, Data, Everywhere** — Google
- **Excel Basics for Data Analysis** — IBM
- **Data Visualization and Dashboards with Excel and Cognos** — IBM
- **Ask Questions to Make Data-Driven Decisions** — Google
- **Machine Learning with Python (with Honors)** — IBM
- **Introduction to Deep Learning and Neural Networks with Keras** — IBM
- **Introduction to Software Engineering** — IBM
- **Hands-on Linux Commands and Shell Scripting** — IBM

EXTRACURRICULAR ACTIVITIES

- **Peer Group Coordinator (2022 – Present):** Lead a student initiative fostering teamwork, knowledge sharing, and peer mentorship.
- **Computer Club Executive Member (2022 – Present):** Organize technical workshops and manage event logistics collaboratively.
