

# Ridhwanur Rahman Khan

Data / Machine Learning Engineer

Dhaka, Bangladesh | [ridhwankhan03@gmail.com](mailto:ridhwankhan03@gmail.com) | +880 1718-175151  
[linkedin.com/in/ridhwan1](https://linkedin.com/in/ridhwan1) | [github.com/ridhwankhan](https://github.com/ridhwankhan) | [ridhwank-portfolio.vercel.app](https://ridhwank-portfolio.vercel.app)

## SUMMARY

---

Data/ML-oriented CS undergraduate with a multimodal thesis (98% defense) on agricultural yield prediction and applied experience with Python ML tooling, SQL, and production data-backed web systems.

## SKILLS

---

Languages: Python, SQL, TypeScript

ML & Data: TensorFlow, Keras, Random Forest, XGBoost, EDA, Feature Engineering

Tools: PostgreSQL, MySQL, Git, Linux; Remote-sensing & multimodal data pipelines

## EXPERIENCE

---

### Founder & Sole Operator - Shoukhin Lifestyle E-Commerce - [soukhin.vercel.app](https://soukhin.vercel.app)

2026 - Present

- Built and deployed a production full-stack storefront (React, TypeScript, Supabase) with checkout and role-based admin.
- Implemented secure bKash payment flows with server-side price validation; hardened auth with RLS, rate limiting, and secure RPCs.
- Owned end-to-end product delivery: architecture, UI, backend, deployment on Vercel, and ongoing operations.

### Operations Associate - Shilar Sokher Rannaghor (E-Commerce)

2022 - Present

- Supported order fulfillment, customer communication, and product sourcing for an online retail business.
- Built reliability habits around deadlines, stakeholder communication, and day-to-day operational ownership.

## PROJECTS

---

### Multimodal ML for Agricultural Land Management (Thesis)

Python, Ensemble ML (Random Forest, XGBoost) | Defended with 98%

- Fused NDVI, Sentinel-1 radar, climate, and soil data across seven Bangladeshi districts to predict Aman rice and Wheat yields.
- Ensemble models outperformed linear baselines (cross-validated  $R^2$  above  $\sim 0.85$ ) with imputation for missing fields.

### KAIRO - Job Monitoring SaaS [LIVE]

Next.js, Supabase, Python | [kairo-job.vercel.app](https://kairo-job.vercel.app)

- Launched a live SaaS for career-page monitoring and job alerts; owned requirements, architecture, build, and deployment.
- Implemented admin governance for user management, account moderation, password resets, and messaging.

### Shoukhin E-Commerce Platform [LIVE]

React, TypeScript, Supabase | [soukhin.vercel.app](https://soukhin.vercel.app)

- Shipped a bilingual English/Bengali production storefront with checkout, role-based admin, and bKash payments.
- Deployed on Vercel with Supabase (PostgreSQL, Auth, Storage, Edge Functions), multi-tier staff access, and RLS.

## EDUCATION

---

### BRAC University - B.Sc. in Computer Science

Dhaka, Bangladesh | Expected Oct 2026 | CGPA 3.47

Relevant coursework: Data Structures & Algorithms, Databases, Software Engineering, Operating Systems, Computer Networks, Machine Learning.

### Uttara High School and College - HSC (2021) & SSC (2019), Science

Dhaka, Bangladesh | GPA 5.00 / 5.00

## CERTIFICATIONS

---

Google: Data Foundations | IBM: Machine Learning with Python; Deep Learning with Keras; Software Engineering; Linux Shell Scripting; Data Visualization; Excel for Data Analysis
